

Download Andromeda Strain Michael Crichton

The Andromeda Strain is a 1969 techno-thriller novel by Michael Crichton documenting the efforts of a team of scientists investigating the outbreak of a deadly extraterrestrial microorganism in Arizona. The Andromeda Strain appeared in the New York Times Best Seller list, establishing Michael Crichton as a genre writer.

The Andromeda strain is a very suspenseful and imaginative book. Once I started reading, I haven't been able to put it down even when my watch read 2 a.m. and I had to work the next day. Once I started reading, I haven't been able to put it down even when my watch read 2 a.m. and I had to work the next day.

Written while Michael Crichton was still in medical school, The Andromeda Strain caused an immediate sensation: partly because the author was still in his twenties; partly because it focused on a biological crisis when most people were thinking about nuclear crises; and partly because of the cool, non-fiction tone it adopted to tell its story. Many people wrote to ask if the book was true. The author became a celebrity.
