Collecting Art Plastic Jewelry: Identification and Price Guide, Leigh Leshner, ISBN 0-87349-954-9, Published January 2005, Published by Krause Publications

What plastics are in my collection ? Knowledge of the composition of plastics in museum collections is necessary to establish a proper approach to the preservation of these materials and in understanding degradation, estimating risk and defining appropriate conservation treatments.

Plastic jewelry made today would likely be poured into an intricate and exact mold. Bakelite, on the other hand, would be hand carved or polished into its final design. Bakelite, on the other hand, would be hand carved or polished into its final design.
